KNIPEX TwinGrip

Front and side gripping plier

- Gripping, tightening and loosening screws with worn heads and threads
- Unique combination: Front grip and side grip function, box joint, push button adjustment
- High-grip front jaw with robust teeth and high gear ratio at the tip of the mouth
- The all-rounder for all common tasks
- Large front and side gripping capacity for diameters and widths across flats 4 - 22 mm
- Very slim pliers let you work even in confined installation spaces with a narrow turning zone for fast results
- Pinch stop reduces the risk of crushed fingers
- Reliable, frontal gripping of flat workpieces up to 8 mm thanks to three-point system
- Three-way adjustable slip joint with push button adjustment for precise alteration of gripping capacity
- Durable and resilient thanks to robust box joint

Capacities for pipes (diameter)	Ø 5/32 – 7/8 Inch
Capacities for pipes (diameter)	Ø 4 – 22 mm
Capacities for nuts	4 – 22 mm
Capacities for nuts	5/32 – 7/8 Inch

technical change and errors excepted

The box-joint is robust and flexible, so that the pliers can hold workpieces between 4 and 22 mm in place.

Comfortable and reliable: The push-button adjusts the gripping capacity in five steps directly on the workpiece and then locks securely – no accidental loss of adjustment!

Optimised jaw geometry: 2-zone gripping jaw with opposing alignment of teeth – for maximum grip when loosening and tightening.

...and the position to be changed quickly at the touch of a button!

The KNIPEX TwinGrip allows the gripping capacity to be set flexibly in five positions...
